ACTION: Subsequent arrangement.

SUMMARY: Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the Government of the United States of America and the European Atomic Energy Community (EURATOM).

The subsequent arrangement to be carried out under the above-mentioned agreement involves approval of the following: RTD/RS(EU)-1 for the retransfer of 510 kilograms of zircaloy-4 cladding tubes from Germany to the Elektrostal Nuclear Fuel Fabrication Facility in Moscow, Russia for fabrication of fuel assemblies. The fuel assemblies will be returned to Siemens AG in Germany for distribution to Western European nuclear power stations.

The initial test phase was approved in January of 1995. At that time, the Russian Government provided assurances not only for the test phase but also the follow-on fabrication phase, as proposed in this subsequent arrangement, that these materials will not be used for any military purpose or nuclear explosive device and that the materials will not be retransferred to the jurisdiction of any other nation or group of nations except to Germany without prior consent of the United States.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 24, 1998.
